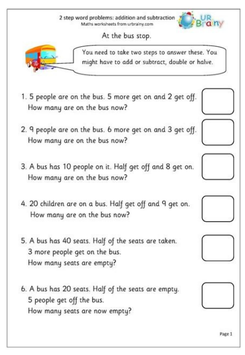
Addition word problems year 6 worksheets



2 step word problems: addition and subtraction

Maths worksheets from urbrainy.com

At the bus stop.

You need to take two steps to answer these. You might have to add or subtract, double or halve.

1. 5 people are on the bus. 5 more get on and 2 get off. How many are on the bus now?
2. 9 people are on the bus. 6 more get on and 3 get off. How many are on the bus now?
3. A bus has 10 people on it. Half get off and 8 get on. How many are on the bus now?
4. 20 children are on a bus. Half get off and 9 get on. How many are on the bus now?
5. A bus has 40 seats. Half of the seats are taken. 3 more people get on the bus. How many seats are empty?
6. A bus has 20 seats. Half of the seats are empty. 5 people get off the bus. How many seats are now empty?

Name: _____ Date: _____

Superhero Problem Solving

Solve each word problem. Remember to show your work.

Flighty Mike caught 6 bad guys on Monday. On Tuesday he caught 4 more. How many criminals did he catch in all?

The superheroes had 14 masks. Some were blue and the rest were red. How many of each could they have?

Super Sally flew around the world in 13 seconds. Her sister took 4 seconds longer. How long did it take for her sister to fly around the world?

There were 8 kittens stuck in a tree. The Flying Hornets saved 3 of them. How many kittens were left in the tree?

Phantom Phap lifted 7 people with his right hand. Then he lifted some more with his left hand. Altogether he lifted 11 people. How many were with his left hand?

Secret Agent Justice tried to save the world from 18 villains. She defeated some of them. There are 6 villains left. How many has she defeated so far?

Name: _____

anig¡Ãp ad opoT o help you practice the skills of multiplying numbers of 2 digits by 1 or 2 digits. A ³ way to review ³, or use it as a weekly morning test! Year 6 Mental Matter Testing Page Top Using these Year 6 Calculation Sheets in the morning I'll help your child: add decimals including dÃ© cimos and centÃ© simos mentally; add a column of numbers with multiple digits, including calculate percentages of different amounts solve problems using percentages use simple graphics expressing problems of missing numbers using lobbra find pairs of numbers that meet equations with two variable variable problems involving simple resolves proportions involving similar forms where the factor of scale is known to use, read, write and convert between standard measurement units, compare and calculate using different measures to know what forms with the same area may have different permetals find the parallelograms and tri-¢ Ready Ngles Find the volume of cubes and cuboides Converter between miles and KM name and understand the parts of circles - Radius, Diameter and Circumernence Draw 2D shapes with precision using dimensions and compose and rank 2D shapes by a range of properties Awards absent in triâms, quadrilaterals and regular forms Use coordinates in all 4 quadrants draw Air and translate simple shapes in all 4 quadrants interpret and build pizza and graphics graphics of lines Calculate the mother's mother's mother. Please note: Our site is based mainly around the patterns of Matematics of the US primary school. The main problem is that part of spelling is different and this site uses US spelling. How to print or save these sheets need help print or save? Using these Year Mathers of the Year 6 will help your child A: use local value with even 10 million to 10 million; Use the value of the decimal house with a maximum of 3 decimal places; Understand how to use exponents (powers) of a number; understand and use paragraphs (paragraphs); Understand and use multiple and factors; to extend your knowledge of cousin and compounds (not cousins) until 100; know and be able to use the pemdas rule (or peds). Top of the page using these mathemostic spreadsheets of the year 6 His Son A: apply their fitness, subtractment, multiplication and division; Apply your knowledge of rounding and placement value; solve a system of problems, including including Problems and problems of proportion. Tables 1 to 4 have 15 problems; Tables 5 and 6 present 20 problems. Follow these 3 grocery steps to get your spreadsheets printed perfectly! How to print or save these sheets need help print or save? This spreadsheet of word problems will produce ten problems by spreadsheet. We split the spreadsheets of this page into two sections: multiplication of 2 dips x 1 Dogito (3 ª Series) Multiplication of 2 Dogs x 2 Dogs (4th Series) Each Section It ends with some more complicated challenge sheets for more capable students. Welcome to our area of mathematic spreadsheets of the year 6. The leaves 2 to 4 have numbers of 2 more difficult dips to multiply and responses that are usually larger than 1000. Using these games will help your child Learn your multiplication facts for 5x5 or 10x10, and also develop your memory skills and strategic thinking. The year 6 is generally equivalent to the 5th year in the US. Weather Problems of Words Spreadsheets - Riddles (HARD) Top of the page Use these sheets will help you: Find the mother of up to 5 numbers; Find a missing data point when the mother is given. This page contains links to other mathematics pages where you will find a variety of activities and resources. Top of the page using these mathemostic spreadsheets of the year 6 will help your child a: know how to find missing angles in a series of situations; Learn the number of degrees in a straight angle, straight line, around a point and in a triâgle; Know how to calculate the area of a triâgle; Learn how to calculate the area of a quadrilateral range. Sheets 3 through 6 involves the multiplication of a number of 2 dips by numbers of a dip and finding increasingly difficult products. Order large numbers to 100 million using these sheets will support you: count and back by 0.1; fill in the missing numbers in count and back at negative numbers. All free 3rd Degree Mathematics Worksheets in this section are reported by the 3rd Degree Elementary Mathematics Benchmarks. Take a look at our rounding decimal pages, or maybe some of our adiposition worksheets and subtract fractions. The idea behind them is that they© can be used ready for some quick matemic activities for your child. Maybe you're looking for some spreadsheets on how to find triangles on a triangle, or do you need some proposed problem worksheets to help your child learn about proportion? Identify common factors, common numbers and prime numbers. (5th Degree) Top page measurement worksheets Here you will find our most difficult time breakers. Follow these 3 easy steps to get your spreadsheets printed perfectly! The MatemÃtica Salamanders expect you to enjoy using these printable Machineseries and all of our other MatemÃtica games and features. Click here for More Problems of Word Worksheets Word Problems - Beginner (Spreadsheet) Login to download Not a member? Here you will find a variety of Multiplication Worksheets to help you become more fluent and accurate with your tables. Inside each section, the leaves are carefully graduated with the most flexible leaves first. The sheets in this section involve ordering decimal lists for 3 decimal places and also©large numbers up to© 100 million. Here you will find a wide variety of year 6 baby measurement leaves printable for your child to enjoy.
